

Topic in Practice

There is one scenario embedded in this lesson. The scenario describes a team working to determine CICO modifications for a student named Jamie. During the scenario, you will be prompted to pause the video and discuss the following questions with your team before proceeding.

First Pause

- Is Jamie's response positive, questionable, or poor?
- What is her goal?
- If her baseline data was 55%, is this a reasonable goal?

Second Pause

- What should Jamie's team do next?

Third Pause

- How did Jamie's team check for fidelity of Implementation?
- What should Jamie's team do next?

Fourth Pause

- How might the team modify CICO to meet the need to get peer attention?

Fifth Pause

- How did the team determine Jamie's new reinforcers?
- How do the reinforcers align with the function of obtaining peer attention?

Sixth Pause

- How does Jamie's contract outline expectations, reinforcers, and supports?
