

Check-In, Check-Out (CICO)

What is CICO?

A small-group intervention designed for students whose behavior(s) are: (a) unresponsive to Tier 1 universals, (b) do not require more immediate individualized interventions, (c) observed across multiple settings or contexts, and (d) whose function of behavior is to get adult attention.

Benefits of CICO?

- More frequent instruction about expected behavior
- Structured student-adult contact at school
- Students receive feedback on their behavior through a more formal mechanism
- Increased opportunities for reinforcement of expected behavior

The Process

CICO Feature Development

1 Develop the essential features of the intervention

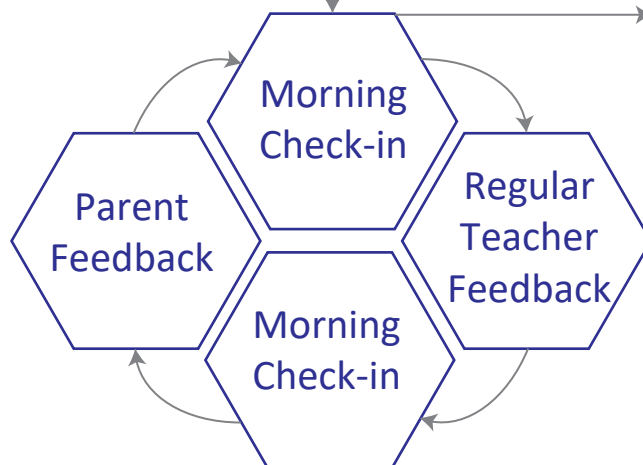

2 Utilize a system to collect, analyze, and use data to make intervention decisions

3 Utilize a system to teach relevant stakeholders about the intervention
